Janet Bazley KC, MCI Arb

Year of Call: 1980 Year of Silk: 2006

Practice Overview

Janet maintains a broad family law practice. Much of her work comprises private law disputes about children, many involving an international element. Janet also receives instructions in complex care cases (generally involving medical issues), in family finance cases and in appellate matters. Janet is rated as a Leading Silk (Band 1) in both the Legal 500 and Chambers and Partners legal directories and was the Legal 500 Silk of the Year in 2023. Janet undertakes arbitrations (in both children and financial cases) in addition to other forms of dispute resolution and is a moderator on the IFLA training courses for family law arbitrators. She also sits part-time as a Judge, in both civil and family cases. Janet is particularly sought after for her clear strategic thinking, her extensive knowledge of medical and mental health issues and her expertise in cross-examination.

Children (Private Law)

Janet undertakes all types of private law children work. Cases include all forms of dispute regarding arrangements for children, including internal and international relocation, specific issues regarding schooling and issues which arise where parents are unable to agree about their child receiving medical treatment. Other cases involve private adoption and issues concerning modern families, such as surrogacy. Janet was instructed by the children's Rule 16.4 guardian in the first series of cases involving errors on the part of fertility clinics resulting in the need for the court to be asked to make declarations of parentage: *In the Matter of the Human Fertilisation and Embryology Act 2008 (Cases A, B, C, D, E, F, G and H)* [2015] EWHC 2602 (Fam). Janet and her junior, Sharon Segal, drafted guidance for the HFEA which was approved by the President of the Family Division.

Janet acted for the natural father in a case in which the President clarified the requirements for foreign adopters obtaining parental responsibility with a view to adopting abroad: *Re S and T (Inter-country Adoption: USA)* [2015] EWHC 1753.

More recently Janet acted for the father in the lead case in *Re H-N (and others)* [2021] EWCA Civ 448, four conjoined appeals in which the Court of Appeal clarified the law and approach to be taken in private law cases involving allegations of domestic abuse.

Leading Olivia Magennis and Melissa Elsworth of 1GC, Janet acted on behalf of the surrogate mother in *Re O (Surrogacy: Consent)* [2023] EWCA Civ 16, a case in which the Court of Appeal considered, for the first time, the consent requirements in s.54(6) of the Human Fertilisation and Embryology Act 2008. The Court of Appeal also declined to read wording into section 54(6) which

would allow the Court to dispense with the surrogate's consent and determined that ECHR rights do not require a Parental Order, which was made without valid consent, to be left in place.

Recent cases include:

A and B (Parental Alienation: No.1, No.2, No.3 and No.4)

Re A & B (Children: "Parental Alienation") (No 5) [2023] EWHC 1864.

Children (Public Law)

Janet has experience over many years of conducting the most complex care cases, for local authorities, parents and guardians. Many of her cases involve the death of young children, where the issue for the court is how the child died and whether the death was from a natural or organic cause or resulted from non-accidental injury.

Janet is also instructed in 'end of life' and other medical treatment cases. One such case was *Re JA (Medical Treatment: Child Diagnosed with HIV) [2014] EWHC 1135 (Fam)* in which the court had to consider, within wardship proceedings, the health authority's application for orders requiring the parents to present their child for HIV treatment. In other cases, the special needs of a party or child witness require the assistance of an intermediary in order for him or her to access the proceedings and have a fair hearing or police intelligence may require the use of special advocates, an example being *Re R (Closed Material Procedure: Special Advocates: Funding) [2017] EWHC 1793 (Fam)*.

Janet often acts in cases which change or clarify the law or procedure. She acted in the Supreme Court for the successful appellant in *Re T (Children) [2012] UKSC 36*, now the seminal authority on costs in children cases. Another such case, involving international adoption, was *Re S and T (Inter-country Adoption: USA) [2015] EWHC 1753*; another was *Re J [2017] EWCA Civ 398*. She was also brought in at appellate level to *Re H-L (A Child) [2013] EWCA Civ 655*, in which the Court of Appeal considered the meaning of 'necessary' for the purpose of permitting the instruction of an expert in a children case.

Janet acted for the children in *Re W (Children) (Care Proceedings: Publicity) [2016] EWCA Civ 113*, in which the court clarified the approach to be taken regarding media attendance at and publication of high profile proceedings involving the death of a child. The court considered s.12 of the Administration of Justice Act 1960 as amended and the exception established by Rule 27.11 FPR permitting the attendance of accredited media representatives at 'private' Family Court hearings.

Recent cases include:

London Borough of Southwark v A Family [2020] EWHC 3117 (Fam) (18 May 2020)

Re N (A Child) (Fact-Finding: NAI) [2020] EWFC B80

T and R, Re (Refusal of Placement Order) [2021] EWCA Civ 71 (28 January 2021)

Family Finance & Property

Janet undertakes a broad range of family finance work. She acts in financial proceedings following divorce, applications under Schedule 1 of the Children Act 1989 often in circumstances in which there are concurrent proceedings relating to children or parties wish to have continuity of counsel. Janet is noted for her sensible approach and ability to settle cases on terms favourable to her lay clients. Her skills as an arbitrator in financial cases are considered to transfer well to court work in this field. In 2016, as an invited member of a Law Commission Committee, Janet was involved in advising the Government on the enforcement of family finance orders, resulting in proposals for reform of the law in this area.

Leading Katherine Dunseath of 1GC, Janet acted in *M v P (Queen's Proctor Intervening)* [2019] EWFC 14 – in which the President gave a judgment which developed the law and gave guidance as to the approach to irregular divorce petitions, particularly those where decrees of divorce have been struck out as being void in circumstances in which the facts alleged were false.

Janet also recently acted in a financial case in which orders had been made by the Tribunal de Grand Instance De Paris and the issue was about enforcement and variation of those orders in this jurisdiction.

Arbitration

Janet has always had a keen interest in alternative dispute resolution and was interested from the outset in the development of schemes for arbitration in family finance and children cases. Having trained as an arbitrator for finance cases, Janet was invited to assist with the preparation of materials and the delivery of the children arbitration course run by the Institute of Family Law Arbitrators (IFLA). Janet has been involved in teaching most of those currently qualified through IFLA to conduct arbitrations in children cases. Janet undertakes arbitrations in both finance and children cases and retains a keen interest in the development of this work. She has found that parties much appreciate the ability to set the agenda for their proceedings, choose their arbitrator and swiftly obtain a binding outcome.

ENE / Private FDR

Janet can offer an expert view of the likely outcome of proceedings to those who hope to be able to resolve a dispute without recourse to the courts. Using Janet's advice, parties are often able to narrow the issues or agree matters between them, often with the assistance of their solicitors.

Janet also conducts mediations in both children and family finance cases. She also undertakes private Financial Dispute Resolution (FDR) in family finance cases.

Court of Protection

Janet undertakes cases in the Court of Protection involving vulnerable adults, some of whom are parents for whom Janet acts in relation to proceedings concerning their children. One such case involved a young mother with significant learning difficulties, for whom the stress of proceedings relating to her children meant that she was no longer able to manage her affairs. She was particularly vulnerable to the father of her children and the court was required to make protective orders as to contact between them and where Janet's client's child should live.
